24"	24.000	-	-	35	36	37	38	39	40	41	43	44	45

Fitting sizes above the heavy line will fit all short and long radius welded elbows. Fitting sizes below the heavy line will not fit most long radius 90° elbows properly. Order fitting covers for long radius 90° sizes by specific pipe size and insulation thickness. Above fitting sizes will fit most 45° welded elbows.
